

Information Security Policy

NOUS Wissensmanagement FlexCo enables companies, NPOs and cultural institutions to implement their digital transformation in the best possible way. We write digital success stories and create points of contact in creatively designed dialogues.

As a responsible, innovative and reliable software company for our customers we are strongly committed to information security and its continuous improvement for all their process, services, and relevant assets, in all locations, whether on premise or remote.

NOUS's **Information Security Management System** is designed to obtain ISO 27001 compliance and the objectives of confidentiality, integrity, and availability in third party services and NOUS's processes, hardware, software, products, and services.

Our ISMS covers the design, development, operation, and maintenance of digital solutions, covering all associated systems, processes, and infrastructure across on-premises and cloud environments

Therefore, information security is a priority for NOUS. The entire management and all employees are hereby bound to adhere to this Information Security Policy and to comply and cooperate with NOUS's Information Security Management System for the continuous improvement of information security.

Our Top Manager Raphael Schneeberger has committed to the implementation and enforcement of this policy.
